

FIRST STAGE: due to an interruption on the nature trail along the Marecchia River, the easy detour described below is necessary. Compared to the official route, it involves a little less than 1 km more travel.

Photo 1

In Vergiano continue straight on the cycle/pedestrian path next to the Provincial road, until the hamlet of Sant'Ermete (1.1 km), where at a small roundabout take Via Savina on the right (Photo 2)

Photo 2

You immediately cross it at the pedestrian crossing and continue on the other side for about 1.6 km (initially on the pavement), ignoring every deviation until you reach, at a left bend, the entrance to a small road with a barrier (Photo 3).

Photo 3

Once past the barrier, continue straight for a hundred metres until you reach the path of the Camino where you turn left, continuing on the nature trail along the river.
