

THIRD STAGE: SAN LEO – SANT'AGATA FELTRIA

Below the town of Cà Migliore, the bridge over the Marecchia river is closed for renovation work. The planned detour rejoins the path of the walk in Torricella, after about 4.5 km, with more or less the same length, difference in altitude and travel times.

The detour starts from Loc. Cà D'Ambrogio, just after the descent from the Maioletto cliff.

Do not turn onto the sheep track that leads to Cà Migliore, staying on the road that continues to San Carlo and Cà Bertozzo (Photo 1).

Photo 1

Follow it continuously for about 1.6 km, passing some deviations, arriving at the S.P. Montefeltresca, where you turn right and go down to Ponte Molino Baffoni (groceries and bars).

Immediately cross the S.P. Marecchiese (ATTENTION!), taking the bridge over the river and walking on the sidewalk on the mountain side, at the end of which you turn left, passing a gate that is always open (Photo 2).

Photo 2

We go down to the dirt road that runs alongside the Marecchia river (Photo 3)

Photo 3

and follow it in the direction of the mountain for about 400 m.

Then go up to the right on an obvious dirt track (Photo 4)

Photo 4

for about 300 m. until, keeping to the right, the trail becomes a wider forest path. After about 400 m. you cross a bridge over the Ca' Martino ditch (Photo 5)

Photo 5

and following the path for another 200 m. you reach a residential area and the road that leads to Villa Franca.

Go left slightly uphill on an asphalt road and, at the height of the Circolo di Torricella, turn left onto the Cammino itinerary (Photo 6).
